Our Inspiration
Harlow & Cosmo

"If you want to be successful, it's just this simple. Know what you are doing, love what you are doing, and believe in what you are doing."

– Will Rogers

We love this quote, because it embodies how we feel about Treat Planet and where we are headed. Thank you to all our partners for your part in teaching us what a good company needs to exemplify!

Thank you to all our partners for your constant inspiration to be more than just a pet treat manufacturer — we want to be a company that cares about your pet and what you feed them.

Thank you to all our partners for making it easier for us to do what we believe in, for mutual success comes from our ability to gather strength and reassurance from those who surround us.

Doug Martin Sherry Huber

Doug Martin & Sherry Huber
Founders of Treat Planet™

Community Partnership

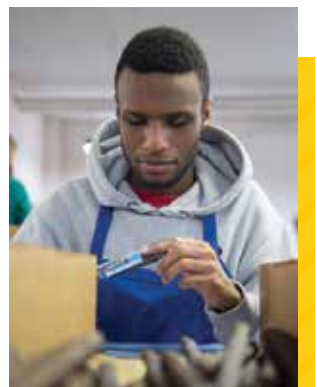

TREAT PLANET HAS PARTNERED WITH GOODWILL INDUSTRIES SINCE 2010.

A dedicated team of adults with intellectual and/or physical disabilities, supported by a supervisory team, diligently work every day to label our extensive chew line. Associates range in age from 18-75 and can work at whatever speed they are capable of. Partnerships like these give associates opportunities to achieve independence in a social setting. Treat Planet is proud of our relationship with these key contributors to our business.

"Etta Says! Chews are the favored product of associates at MERS Goodwill to work on!"

– Debbie Gore, Director

"I will never look at your chews the same way again."

– Ingrid, SE Pet

A dedicated team diligently work to label our extensive chew line.

we love
**PEOPLE
& DOGS**

Maximize Sales in *Your Store!*

One of the largest impediments to growth for pet stores today is the fact that you cannot easily make your store bigger! So, maximizing retail dollars per linear space is a critical component of retail success. **Do you know what your average retail per linear foot is in your store?**

To help our retail partners maximize this critical matrix, we have added a simple tag to many of our award winning displays showing retail dollars per linear space.

DRIVE UP Your Average Cash Register Ring

Treat Planet knows that our success depends on the success of our retail partners. This simple philosophy has shaped our approach to provide world class merchandising options with market leading packaging design. Treat Planet knows that market success depends on:

- Great Products
- Engaging Packaging
- Award Winning Displays

ASK US HOW we can help you drive those sales through creative merchandising with great products!

Professional store layout and product display experts are not something that stores can easily afford. Treat Planet strives to provide this expert advice for free to our retail partners by providing professionally designed displays to drive incremental sales for each customer. Driving up average retail rings is a win win for our partners and Treat Planet.

We are excited and honored to announce that **Treat Planet's Ultimate Chew Power Wing** was awarded **Best in Show** for "Point of Purchase" display in the New Product Showcase at Global Pet Expo in 2018.

This display expands our range of unique and space saving merchandising solutions currently offered to our retailer partners. Incorporating our proprietary "Munch Meter" signage, it showcases 11 unique proteins with 3 levels of hardness – Premium, Select and Deluxe.

- Great for picky eaters or pets recovering from injury or illness.

WHY IS ORGANIC IMPORTANT?

Organic certification ensures that products have been grown and handled according to strict USDA procedures. Dog treat certification is the same process as human food certification.

Organic Ingredients are Chemical Free

Organic foods do not contain chemicals such as fungicides, herbicides, and insecticides. These chemicals are widely used in conventional agriculture where residues remain on (and in) the food. Organic foods are also not genetically modified (non-GMO).

Organic Food Tastes Great

Well-balanced soils grow strong healthy plants that taste great. In addition, organic food is usually fresher because it does not contain preservatives.

Organic Farming is Better for the Environment

Organic farming practices reduce pollution (air, water, soil), conserve water, increase soil fertility, and use less energy.

Organically Raised Animals are Cared for - Not Tended to

We only use chicken and milk from organically certified sources - they care for their animals. These animals are NOT given antibiotics, growth hormones, or fed animal byproducts.

MADE IN USA
FROM AMERICAN FARMS

Discover What Mother-Nature has Always Known...Dogs love Rabbit!

Our 100% Rabbit Recipe, also blended with sweet potato or cranberries, is sure to please!

100% Rabbit

Sweet Potatoes

Cranberries

Honey

Why Rabbit?

The USDA calls rabbit the most nutritious meat available. Higher in protein, lower in fat, lower in calories and lower in cholesterol than chicken, veal, turkey, lamb, beef or pork. Because it is easy to digest, vets frequently recommend rabbit for dogs with sensitive stomachs and gastrointestinal, skin or pancreatic issues.

Savvy customers demand higher quality. We deliver by only using 100%, USDA inspected, All-American Rabbit, farm raised in the USA.

No wheat, corn or soy.

Watch our video online or request a copy of our *Why Rabbit?* brochure, for more benefits of rabbit.
